

ARGUS C4 TECHNICAL DETAILS

For the benefit of advanced amateurs who are frequently interested in technical information regarding their equipment, we supply here some of the data which is often requested in letters to our consumer relations department.

LENS

Cintar f:2.8 (60% faster than f:3.5), with diaphragm openings to f:22.

Speed: based on T-stops, T:2.95 at f:2.8, other openings in proportion.

Focal Length: 50 mm (2").

Diameter: Lens mount measures 1.300" outside diameter for lens accessories. Use 33 mm. adapter ring and 41 mm. or Series VI filters and supplementary lenses. EK No. 26, Series VI screw-in type adapter ring also fits.

Correction: Very good for both color and black-and-white photography.

Resolving Power: Center of field, 120 lines per millimeter.
Hyperfocal Distance: 59'3" at f:2.8.

Field Covered: At infinity, 27° x 40° angular.

100 ft.	48' x 72'
50	24' x 36'
25	12' x 18'
15	7'3" x 10'6"
10	4'9" x 7'
8	3'9" x 5'6"
6	2'9" x 4'
5	2'3" x 3'4"
4	1'9" x 2'8"
3.5	1'6 1/2" x 2'3 1/2"
3	1'3 3/4" x 1'11 1/4"

SHUTTER

Behind lens type, very accurate.
Five exposure blades, two capping blades. Five speeds, with extremely accurate 1/200 suitable for all average action pictures.

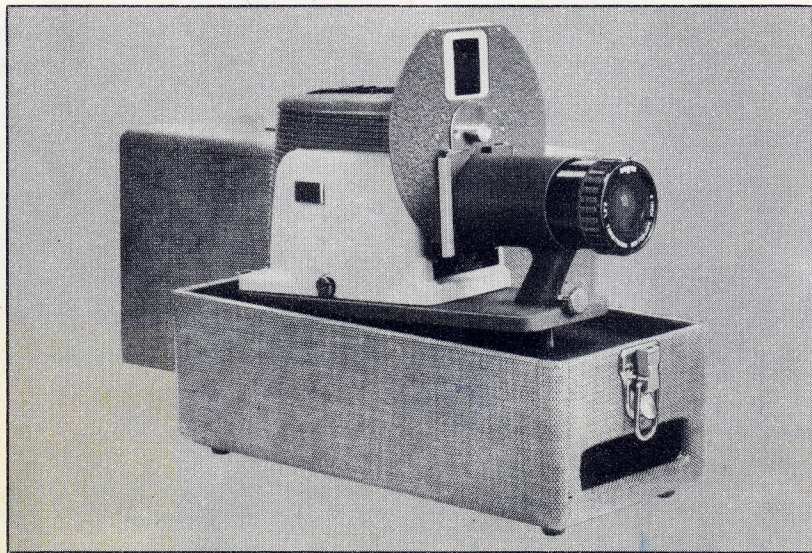

FLASH

Complete for ALL flash lamps at ALL shutter speeds. Adjustable for 5 millisecond and 20 millisecond delay. Can be used with existing flash-tube ("strobe light") units, with 5 or 20 millisecond delay circuits.

RANGE-FINDER

Superimposed image type, combined with view-finder. View-finder Minification: .8. Eye-Relief: .6". Mirror: High efficiency reflex type gives 50% brighter image than view-finder field for easier focusing.

ARGUS PROJECTOR

All Argus Projectors yield brilliant, sharp, evenly illuminated pictures. Their design and performance are preferred and selected by budget-minded amateurs who want the best in moderately priced projectors.

**Color slides look best
when projected on a screen**

DO YOU PLAN TO TAKE A TRIP?

If you plan to take a trip or plan some special photographic event, you should expose a practice roll or two of film, including a few flash pictures. This will acquaint you with your new camera and prevent the disappointment of spoiling an important picture through lack of familiarity. . . .

Guarantee

Your Argus C4 camera was thoroughly inspected and tested before it was shipped from our factory, and when purchased from an Authorized Argus Dealer, it is fully guaranteed for a period of one year against defects in workmanship or material.

If this camera develops defects in material or workmanship, it will be repaired or replaced (our option) without charge.

This guarantee is void in the event the camera has been damaged through accident, misuse, mishandling or for reasons beyond our control.

IMPORTANT

Authorized Argus Dealers sell new Argus equipment at full list price; used or rebuilt equipment sold at less than list price is not guaranteed by the factory.
